

## Victorian Geriatric Medicine Training Program

### Centralised Match for Advanced Training in Geriatric Medicine in 2023

Site Coordinators Update 30<sup>th</sup> May 2022

The first-round match for continuing trainees opens on 1<sup>st</sup> June 2022

This round is for:

- Continuing Geriatric Medicine Advanced Trainees
- Advanced Trainees entering from another specialty provided that they have completed some training with RACP. If an applicant has not completed any Advanced Training prior to the end of 2022, then they should go into the second-round match.

All full-time trainees must go through the match.

Part-time, part-year and job-share applicants may be appointed outside the match. It is preferable to make these appointments prior to the deadline for the first-round match. If the applicant has not been able to secure a position, they may enter the match for a full-time position. If an applicant does accept such an offer they must withdraw from the match before the deadline. If they fail to do so, and are matched, then the matched position is binding.
