

## Centralised Match for Advanced Training in Geriatric Medicine in 2023

Thursday 8th September 2022 at 5PM is the deadline for:

- Reordering your health service preferences
- Deleting existing health services from your preference list. You cannot include additional Health Services at this stage.
- Withdrawing from the match

Carefully consider your options. To optimise your prospects of being matched into an Advanced Training position in 2023 your preference list should include multiple Health Services, but do not list any position that you would not be prepared to accept. The results of the match are binding on both applicants and Health Services.

If you have already accepted an appointment for 2023 you must withdraw from the match by 8<sup>th</sup> September 2022.

Wishing you success

Benny
