About Western Health

Western Health is a rapidly growing tertiary level health service that provides clinical services across the acute, subacute and community sectors. Western Health manages three acute public hospitals: Footscray Hospital; Sunshine Hospital; and the Williamstown Hospital. It also operates the Sunbury Day Hospital, and a Transition Care Program at Hazeldean in Williamstown.

Services are provided to the western region of Melbourne which has a population of approximately 800,000 people.

Western Health provides a comprehensive, integrated range of services from its various sites; ranging from acute tertiary services in areas of emergency medicine, intensive care, medical and surgical services, through to subacute care and specialist ambulatory clinics. Western Health provides a combination of hospital and community-based services to aged, adult and paediatric patients and newborn babies.

Western Health's values are:

- Compassion** *consistently acting with empathy and integrity*
- Accountability** *empowering our staff to serve our community*
- Respect** *for the rights, beliefs and choice of every individual*
- Excellence** *inspiring and motivating, innovation and achievement*
- Safety** *working in an open, honest and safe environment*

About the WH Geriatric Medicine Department

Western Health endeavours to tailor its training program in Geriatric Medicine to the needs of its community as well as the needs and interests of individual registrars, including those working part time. Western Health is a major partner in the Western Training Alliance of the Victorian Geriatric Medicine Training Program (VGMTP), together with Melbourne Health, Barwon Health and Ballarat Health.

The Geriatric Medicine Department is a highly respected department within WH. We are involved in all points of care in a patient's journey – with a Geriatrician in ED model of care, 5 AAC units, 3 OGS units, 6 subacute wards, and multiple community services, specialist clinics and rapid access clinics. We have strong working relationships with all other

departments, and are involved in establishing several innovative models of care. We are a large department of 22 Consultant Geriatricians who are passionate about providing best care to our patients, and providing an excellent training experience for our Registrars.

Western Health offers trainees exposure to a comprehensive range of clinical services, including:

- A large Acute Aged Care program;
- Orthogeriatrics service;
- Geriatric Evaluation and Management (GEM) units across Footscray, Sunshine, Williamstown and Werribee hospitals;
- Cardiogeriatrics service;
- Dementia Management Unit;
- Rehabilitation;
- Transitional Care;
- Specialty clinics, including Movement Disorders, Falls and Mobility, Falls and Fractures, Wound, Urodynamics and CDAMS
- Community-based care including HARP, Rapid Access Clinics, Residential Aged Care Liaison and Rural assessments.

In addition there is a rotation to Aged Person's Mental Health associated with North West Mental Health for Old Age Psychiatry inpatient care.

There is also an extensive education program. Trainees attend the fortnightly state-wide VGMTP sessions, a local program tailored to the needs of Western Alliance trainees and various other local training activities including those expected in a teaching hospital. Supportive senior medical staff supervise all aspects of training, and the Western Alliance Fellow in Geriatric Medicine is based at Western Health.

Western Health has a clinical school affiliation with the University of Melbourne.

About the Geriatric Medicine Registrar Role

In 2022 there will be roles available for the Western Training Alliance Fellow in Geriatric Medicine and 13 full-time equivalent Advanced Training positions (both first year and continuing). We welcome applicants who seek part-time training, noting that having a partner to job share with is ideal.

We also employ an unaccredited Registrar who provides leave cover for the AT's.

Rotations are 3 x 4 months. We tailor these rotations to the trainee, to offer a broad training experience, but also to ensure outstanding training needs, especially in the final year, are met.

All appointments will be made through a centralised match.

Please visit <https://www.vgmtp.org/centralised-match.html> for more details.
